StriVectin®

StriVectin Eye Cream

There is no question that StriVectin-SD® has become the most sought-after topical cream around the globe. StriVectin-SD Eye Cream consists of the same functional compounds contained in the original StriVectin-SD formula... but without the aromatic components, and enhanced with soothing agents to help protect the delicate skin around the eyes... it even helps reduce the appearance of dark circles!

StriVectin Facial Sculpting Cream

Not only will StriVectin's® New Instant Facial Sculpting Cream reduce the appearance of fine lines, wrinkles and crows' feet, but it also accentuates your cheekbones & jaw line as it visibly lifts, tightens & tones your skin... making your face look more sculpted, youthful & defined. It even reduces the appearance of "ear wrinkles"... those nasty little lines in front of your ears (you know, the wrinkles you ignore but everyone else gets to see).

StriVectin Neck Cream

Specifically formulated to visibly firm and tighten neck area. Reduces the appearance of sagging "turkey neck". Improves the look of neckline and décolletage. Evens skin ton and discolorations.

StriVectin®

StriVectin SD

There's a reason StriVectin-SD®, the stretch-mark cream turned anti-wrinkle phenomenon™, is the number-one selling prestige skin cream in the entire world. StriVectin-SD helps reduce the appearance of fine lines, wrinkles and crows' feet. StriVectin-SD helps give you a youthful, healthy-looking, glowing complexion faster than retinol, far superior to vitamin C, and without irritation, needles, or surgery.
